America's Leading Coin Auctioneers

ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 percent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 percent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Sales Are Conducted As Follows:

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL — IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuation placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. **YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin — instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any lots may be inspected prior to the sale. Collector is liable until received by us. Collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

IS THIS YOUR FIRST AUCTION CATALOG?

24th EDITION (1971) GUIDE BOOK, PAPER MONEY 6th EDITION, "TRENDS" AND OTHER AUCTION RECORDS USED IN CATALOGING

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

Please allow up to two weeks for receipt of coins; unsuccessful bidder will be notified.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints (yes we receive some now and then), we want to hear them. Having catalogued over two hundred ninety successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 percent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 11¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

Want List, Comments, or Special Instructions

LARGE CENTS, SOME "CONDITION-CENSUS"

1. 1793 S-8, WREATH, Vine & Bars Edge, Extremely Fine & Sharp with attractive brownish chocolate color! A highly desirable specimen of the first year of our regular coinage. **FAR SUPERIOR TO THE USUAL 1793 OFFERED!** We note the Guidebook does not list this date in better than very fine. In trying to arrive at its value, we note "fine" is valued at \$600, nearly double the "very good" price of \$375; and "very fine" is valued \$1150, nearly double the fine; therefore this top-grade Extremely Fine (bordering on the "About Uncirculated" claimed by owner) should easily be worth over 2,250.00
2. 1793 S-11b, LETTERED EDGE, DOUBLE LEAF EDGE, graded "A real nice 35 to 40 coin" (Extremely Fine) from an old Federal Brand (Cleveland) auction. It was also represented there as **"THIS COULD BE THE 2ND OR 3RD FINEST KNOWN"**. Also "we feel that our estimate of \$2,500.00 may be a trifle too conservative." It realized \$2,300.00 there some years ago. Using Sheldon's formula, we arrive at a present value of over 4,500.00
3. 1794 S-19b, HEAD OF 1793, very good bust & date as well as reverse but corroded with only LI of Liberty legible, quite sharp edge lettering. **VERY RARE variety.** 60.00
4. 1796 S-87, LIBERTY CAP, Low 6 variety, very fine (rub spot in field). Rare. "Condition-Census" includes an "about extremely fine coin", therefore this is a desirable specimen. Surely, it is worth more than the "very fine" catalog value for "common" varieties of only 215.00
5. 1797 S-138, Stems, characteristic swelled reverse die (top) extremely fine and sharp with attractive bluish chocolate color, a glass reveals slight rub in field, pinpoint edge nick. Scarce 175.00
6. 1798 S-184, Small date, Low 9, Uncirculated with even brown color, close examination with a glass reveals just the barest trace of rubbing. A lovely specimen deserving the attention of the most discriminating collector. Acquired as "CONDITION-CENSUS" (could be 55 the coin). Scarce. Probably worth 6000.0
7. 1800 S-212, The "Chips" variety 55, virtually Uncirculated, only barest friction. Acquired from an old Federal Brand (Cleveland) auction as **"Little touch of wear, Plac. unc., brown and steel toned 55 and equal to the finest known —\$850.00."** RARE VARIETY. We feel this choice specimen will now exceed 1,500.00
8. 1802 S-237 Widest Date & Largest Berries of year, rare early die state without die breaks, near Uncirculated with pleasing brown color, pinpoint nick. Very close to "CONDITION-CENSUS" if not actually one of the two "A.U.50" coins listed therein. 375.00
9. 1802 S-236, Only 4 berries on right branch, very fine & sharp. 65.00
10. 1802 S-233, T over Y in LIBERTY, fine (deep brown & black color). RARE (R-4). Valued by Sheldon at 3 times "common" variety or 67.50
11. 1803 S-251, Small date & small fraction, lustrous extremely fine and sharp with lovely blended chocolate-steel color. Valued by Sheldon at 50% more than "common" variety or very close to 200.00
12. 1803 S-258, Small date, Large Fraction, early die state with arc die break rather light, **UNCIRCULATED LIGHT TAN. CHOICE!** Excellent for date, variety or "Type". Well worth 1,000.00
13. 1806 S-270, Very good. Catalogs 37.50
14. 1807 S-273, Large 7 Over 6, extremely fine as to wear but has some pitting. Probably worth v.f. price of 60.00
15. 1808 CLASSIC HEAD TYPE, S-278, 13 stars, only slight wear but corroded, edge nick. Worth at least "fine" price of 50.00
16. 1810 S-283, Virtually Uncirculated, only barest friction, lustrous steel-blue patina. Scarce variety valued at 50% more than "common" variety by Sheldon. "CONDITION CENSUS". Easily worth 400.00

HALF CENT PROOFS

All are RARE with many dates VERY RARE TO EXCESSIVELY RARE. Many dates appear on the market only once in five or ten years and some perhaps "only once in a lifetime". A most unusual opportunity for the collector of proofs as well as those interested in half cents. We cannot help but feel that present listed catalog values for these seldom offered early proofs do not adequately reflect their true rarity.

52. **1835 RED & BLUISH PROOF, SHARP STRUCK!** A typical specimen of proofs of this date that we have examined in our thirty-eight years as professional numismatists (lighter "depth" of the mirrorlike surface than that on dates struck only in proof or on restrikes made some years later.) Catalogs 485.00

53. **1842 Reverse of 1840, Second Restrike, small berries, GLITTERING RED & SLIGHTLY PURPLE PROOF.** Lot 45 of our March, 1967 sale described: "G-3, We agree with the statement by Stack's in describing the Brobston specimen (Jan. 1963), Very few are known to exist of the restrikes of 1842." Our records kept over the thirty-odd years we have been professionals, leads us to believe as Stack's research led them to believe, that this is among the rarest dates! \$925.00 was paid for this coin at that sale 4 years ago. Since then, research by leading authorities has established that **ONLY 7 OR 8 (Possibly a 9th, but certainly no more) OF THESE EXIST! THIS INCLUDES THOSE IMPOUNDED (Smithsonian, A.N.S., Museums, Foundations, etc.).** Surely an **OUTSTANDING RARITY SUCH AS THIS IN "GEM" CONDITION** is worth over 1,200.00

54. **1850, Lot 50 of our March, 1967 sale described: "B-117 (Ex-Breen collection) BLUISH GOLDEN PROOF, DEEP SHARP STRIKE, WIRE EDGE, tiny spot, tiny nick.** The rarity of this coin is attested to by the fact that **THE GUIDE BOOK DOES NOT LIST THIS DATE IN PROOF!**" \$1,000.00 was paid for this coin at that sale 4 years ago. Surely **THIS OUTSTANDING RARITY** deserves a bid in keeping with its true rarity.

55. **1852 Reverse of 1856, First Restrike, small berries, GLITTERING RED & BLUISH PROOF. A MAGNIFICENT SPECIMEN OF THIS "PROOF ONLY" DATE!** This possibly could be the Brobston specimen sold by Stack's Jan. 1963 at \$625.00. Surely 8 years later, this popular "Proof Only" date in "GEM" condition should be worth over 850.00
56. **1855 GLITTERING RED, PURPLE & BLUISH PROOF.** A careful check of the old auction catalogs, plus a record of the specimens offered during our thirty-eight years as professionals, confirms the fact that fewer **HALF CENT SPECIMENS ARE KNOWN IN PROOF OF 1855 THAN ARE KNOWN OF THE OTHER 1c THROUGH \$1 PROOFS OF THIS DATE!** Surely this rarity worth 600.00
57. **1857 GLITTERING IRIDESCENT COLOR PROOF. NOT ONLY IS THIS DATE RARE IN PROOF, BUT THERE IS A STRONG DEMAND BY PROOF COLLECTORS TRYING TO ASSEMBLE PROOF SETS STARTING WITH 1857 TO CURRENT DATE.** This demand should send it into the neighborhood of 600.00

We maintain a large stock of U.S. coins and currency -- not contained in our mail sales. Use the back of the Bid Sheet for your want list.

LARGE CENT PROOFS

All are RARE with many dates VERY RARE TO EXCESSIVELY RARE. Many dates appear on the market only once in five or ten years and some perhaps "only once in a lifetime". A most unusual opportunity for the collector of proofs as well as those interested in Large Cents.

58. 1829 N-6, Large Letters, **GLITTERING RED, BLUISH OLIVE PROOF! A LOVELY SPECIMEN OF THIS GREAT RARITY!** After deducting those known to be impounded in museums and foundations, we were forced to conclude that the number that might possibly be available to collectors could be counted on one hand! Who knows when this (if it doesn't go to a museum or foundation) or another specimen may again come upon the market. This particular specimen reposed in this collection for a number of years; in fact, it is in a Henry Chapman envelope (he was one of the leading dealers until his death in the 1930's). We note the 1964 A.N.A. Convention sale contained several proof large cents, although it did not have this date. The 1841 (valued \$1,750) realized \$1,400; the 1844 (valued \$1,500) realized \$910; 1854 (valued \$750) realized \$525; 1855 (valued \$1,500) realized \$1,050.00. This 1829 is not only MUCH RARER, but nearly 7 years has elapsed since then. During these 7 years, both early proofs and choice large cents have advanced substantially in value. It is almost impossible to estimate what this rarity might now bring, but since it is our policy to give the collector some guidance in arriving at the value of a coin, we shall do so. Based on a formulae taking into consideration rarity, supply and demand, this rarity should realize between \$4,000 and 5,000.00

59. 1847 **GLITTERING RED, PURPLE & BLUE PROOF! A LOVELY SPECIMEN!** The inner envelope is that of J. G. MACALLISTER (a leading dealer of the 1930's) dated Feb. 10, 1937 and the outer envelope is marked "BRILLIANT GEM PROOF 12/64 \$1,800.00". Probably now worth 3,500.00

60. 1848 N-19, **GLITTERING RED, PURPLE & BLUISH PROOF! A LOVELY SPECIMEN OF THIS RARITY!** Envelope inside marked "Lot No. 3574, June 29, 1912 Earle Collection". Outer envelope marked "BRILLIANT PROOF 12/64 \$1,750.00". Probably now worth 3,500.00

61. 1855 N-11, Slanting 5's, **BROAD RAISED EDGE BOTH SIDES & "SQUARE" SHARP EDGE** characteristic of carefully made proofs of this period. It closely resembles the "Matte Proof" cents of 1909 through 1916 rather than the mirror finish of earlier proofs. It is difficult to know whether this specimen was made this way or whether it acquired this appearance since it left the mint. It is a red, purple, bluish, olive, brown blended color. "Matte Proof" or "Bronzed Proof" half cents and large cents are known, therefore it is sometimes difficult to know exactly what the Mint made in the earlier years. This is listed as R-7 (4 to 12 struck). We finally located a record for a specimen — nearly 7 years ago in the 1964 A.N.A. Sale where an 1855 N-11 Proof sold at \$1,050; although it was estimated at \$1,500.00—a price which seems quite reasonable, considering its rarity. It was described as "choice, lustrous red, purple and light blue toning". There isn't any pedigree of the specimen we are now cataloging, so we do not know its origin. We note the catalog lists proofs of the other denominations from 1/2c through \$20 gold but omits proof large cents. When this omission is corrected, we look for an increased demand (with attendant higher prices) for them.

“VERY RARE LIBERTAS AMERICANA MEDAL IN SILVER”

62. Lot 726 of April 19, 1957 Stack’s sale with above heading and described: “1781 Obverse: LIBERTAS AMERICANA (American Liberty). In exergue, 4 Juil. 1776. Beautiful spirited head of Liberty with pole to cap (which was imitated on the cents and half cents of 1794, 1795, 1796). Reverse: The infant Hercules with Minerva (France) holding the Lion (Gt. Britain) at bay with a spear. NON SINE DIIS ANIMOSUS INFANS. (t(he infant is not bold without aid). Dupre was the die cutter. Betts 615, Silver, 50 M M. ORIGINAL. Purchased at the Thomas Elder sale December 24, Lot 1596 at a cost of 385.00. Worth 3 times that at least. EXTREMELY FINE, CHOICE, WITH PROOF SURFACE. VERY RARE.” There is a 1963 invoice with it from a Chicago dealer at \$1,250.00 and it is mounted in an attractive 8X5 plastic holder gold lettered 8 lines as per Stack’s description (“1781—ORIGINAL”). An article about it by Russell Porter from Central States organ accompanies this desirable historical medal and states that it was **DESIGNED BY BENJAMIN FRANKLIN WHILE MINISTER TO FRANCE!** It commemorated the signing of the **DECLARATION OF INDEPENDENCE** and perpetuated the victories of the Continental Armies at Saratoga and Yorktown. In a letter to Robert Livingston, 4th March, 1782, Franklin depicts his intent of the mythological reverse device. The infant Hercules was his idea of personifying the young Republic, the United States of America, etc. Date 17 Oct. 1777 (Surrender of Burgoyne at Saratoga) & 19 Oct. 1781 (surrender Cornwallis at Yorktown).

In a letter to Livingston 15 April 1783 Franklin states“**I enclose one of them in silver for the President of Congress and one in copper for yourself.**” Some were also sent for members of Congress.

Porter states:

“The medal is universally considered **THE MOST BEAUTIFUL OF THE PEACE MEDALS.** It is prized by numimatists perhaps more than any other because, without a doubt, the beautiful, spirited head of Liberty influenced our mint engravers to imitate it upon some of the earliest of the United States coins.” There is also a picture & article about it taken from Coin World.

THIS “ORIGINAL IN SILVER” SHOULD NOT BE CONFUSED WITH ANY WHICH HAVE BEEN PRODUCED SINCE THIS WAS MADE IN THE LATE 1700’S! What a story it could tell if its pedigree were traced back.

Early American coins have advanced substantially since this was purchased at \$1,250.00 in 1963, therefore we feel “**most prized and beautiful of peace medals**” should now be worth at least double.

1864 BRONZE CENT, NO "L", PROOF

73.	1864 GLITTERING REDDISH GOLDen PROOF! EXTREMELY RARE TYPE & DATE (3-type-year; copper nickel, bronze without "L", bronze with "L"). MUCH RARER THAN CATALOG INDICATES! Modern research has established that ONLY 100 WERE STRUCK RATHER THAN THE 150 HERETOFORE INDICATED IN THE CATALOG! Considering the intervening 107 years, we doubt if as many as half the original number still exist. Of these few, only a fraction remain that have not been injured in some way. THE RAREST "TYPE" PROOF SMALL CENT EXCEEDING THE FLYING EAGLE TYPE (WHICH CATALOGS \$2,100) BY FAR (F.E. struck 3 years)! We believe the catalog (when it corrects the number proofs struck from the listed 150 to the proper 100) should value the proof at least 1,000.00. When the fact is absorbed by collectors that the correct number of proofs struck is only 100, we feel this EXTREMELY RARE TYPE will rise to a more realistic price in keeping with its rarity, probably to over \$2,000.00. How long this "educational process" will take, your guess is as good as ours.

1864-L BRONZE PROOF CENT

74.	1864-L GLITTERING REDDISH GOLDen PROOF! THE COIN THAT DISTINGUISHES A REALLY "OUTSTANDING" COLLECTION FROM AN "ORDINARY" OR EVEN AN "UNUSUAL" COLLECTION OF PROOFS! It is possible to assemble a complete collection of proofs with preserverence and adequate finances, with the exception of the 1864-L cent. In all our 38 years as professional numismatists, we have seen only 5 different specimens of genuine 1864-L proof cents. While it was our privilege to handle several of these, some were simply "just not available for personal collections". The catalog lists 20 specimens struck however modern research now lists it as "RARITY 7" (7 TO 9 SPECIMENS) (SCOTT) & values it \$5,500.00. When those specimens in museums & foundations (Smithsonian, etc.) are deducted, we believe the remaining ones available to collectors can be counted on one hand! IT IS INDEED AN OCCASION WHEN A SPECIMEN COMES UPON THE MARKET. Such an occasion occured April 10, 1969 when the remarkable Miles Collection specimen was offered at auction by Stack's. It realized \$6,000.00. When the specimen herewith offered is sold (if it isn't impounded in a museum or foundation) who knows how many years will elapse before an 1864-L Proof Cent will again be offered. We are reminded of one of B. Max Mehl's favorite statements, "I don't know which is rarer, the coin or the opportunity to acquire it". We agree with him. The true "bargain" is the opportunity to acquire the coin. A price is theoretical unless the coin is available. We do not know what this rarity is now "worth", however we note a substantial increase in the circulation of Coin World in recent months. In addition, there has been a marked increase in the number of bidders in our recent sales. These, in addition to other criteria, confirm the increasing demand which of course must ultimately be reflected in higher prices prevailing. We agree with Stack's statement in describing the Miles specimen, "This is the OUTSTANDING RARITY of all United States minor coins, and the Rarest Proof in the entire series of nickel, copper, or silver. The last specimen we sold was at the Jay Sale for \$5,250.00." The Miles specimen advanced to \$6,000.00 and we now expect this specimen to advance somewhat beyond, possibly the owner's insured value of	7,500.00

1865-1876 PROOF CENTS

75.	1865 GLITTERING RED PROOF! A MAGNIFICENT SPECIMEN OF THIS RARITY POSSIBLY AN EQUAL SPECIMEN MAY EXIST, BUT CERTAINLY NO SUPERIOR ONE; The lowest number of proofs struck of all the dates of Indian cents from 1865-1909! Yes, it is even rarer than the 1877 which catalogs \$1,100.00. It is listed in the catalog at the same value as the 1866 of which nearly 50% more were struck .This magnificent specimen should bring well over	500.00
76.	1866 RED BLUISH BROWN DEEPLY TONED PROOF, does not have all the original luster. Catalogs	325.00
77.	1867 RED & BLUISH PROOF. ONLY 625 STRUCK! CATALOGS	300.00

81.	1871 RAINBOW DEEPLY TONED PROOF. RARE. CATALOGS	400.00
82.	1872 GLITTERING RED PROOF! A MAGNIFICENT SPECIMEN OF THIS RARITY! The owner was so proud of it that he encased it separately in plastic. The catalog price of \$480 does not adequately reflect the value of a premium specimen such as this. Surely this remarkably choice specimen worth closer to ...	600.00
83.	1873 REDDISH GOLDEN BLUISH OLIVE PROOF. CATALOGS	255.00
84.	1874 REDDISH GOLDEN BLUISH OLIVE PROOF. CATALOGS	225.00

A PREMIUM SPECIMEN WORTH OVER ITS CATALOG OF \$1,100.00. Superior to the Miles specimen auctioned by Stack's April 10, 1969 which realized \$1,200.00. Surely this superior "Dream Coin" worth more. |

118.	1939-40-41-42 Glittering Golden Proofs. Catalog	45.50

1864 SMALL MOTTO TWO-CENT PIECE

119.	1864 SMALL MOTTO, "Square Edge" & Sharpness of strike generally associated with proofs. It also has a Prooflike surface but we feel the "depth" of the proof surface is not sufficient to qualify it as an intentional "Proof", even though the owner has attributed it as a "Proof". Glittering Red Golden Bluish. Surely this remarkable specimen "worth" over	500.00
------	--	--------

1864-1873 PROOF TWO-CENT PIECES

120.	1864 LARGE MOTTO, GLITTERING RED PURPLE BLUISH PROOF, NICE SHARP STRUCK WITH RAISED EDGE BOTH SIDES! ONLY 100 STRUCK, MAKING IT BY FAR, THE RAREST PROOF 2c (except for the "Impossible" 1864 small motto)! We note that 500 to 1000 each were struck for the other dates. Possibly the omission from the catalog of the number of proofs struck for 2c pieces accounts for the lack of recognition of the true rarity of this date in proof. We feel that when this omission is corrected, it will rise to its proportionate value. Surely for the present, this rarity should bring around	300.00
121.	1865 GLITTERING REDDISH BLUISH OLIVE PROOF. Only 500 struck! Catalogs	130.00

1863 "TRANSITIONAL" TWO-CENT PROOF

130. The 1963 description (sale from which it was purchased) follows: "2c 1863 TYPE 1864 LARGE MOTTO, BRILLIANT PROOF (we agree, it is a MAGNIFICENT SPECIMEN). Number 9 in the list of Transitional Coins in the June 15, 1961 Coin World at \$700.00. 1½ years later, one was advertised in Coin World at \$2,300.00."

In checking sale records, we came across the one in the 1961 A.N.A. August Sale (Atlanta) at \$1,000.00. Note the sequence; \$700 June 1961, \$1,000 August 1961, \$2,300 late 1962. Transitional coins have varied in popularity since then, therefore it would be difficult to know what it would now bring.

1866-1883 PROOF SHIELD NICKELS

157.	1866 RAYS, GLITTERING BLuish GOLDEN PROOF! EXTREMELY RARE TYPE & DATE. Most "Proofs" we have seen of this date turn out to be uncirculated specimens with prooflike surface or skillfully processed uncirculated. This gives the impression that many more proofs exist than were actually struck. ONLY 125 PROOFS WERE STRUCK BUT WE DOUBT IF AS MANY AS 50 STILL EXIST. When those that have been cleaned, polished or otherwise processed are deducted, then the true rarity of genuine proofs in choice condition can readily be understood. We believe the catalog is a bit low for choice genuine proofs such as this at only	1,200.00

1912-S PROOFLIKE NICKEL

205.	1912-S Brilliant Bluish Golden, Prooflike surface, Full Stars & "SQUARE EDGE" generally associated with Proofs, also Wire Edge obverse. Since no full proofs exist, this could be as close to it as it is possible to obtain. The "Special Care" which appears to have been given it at the time it was struck, raises the possibility it might be a "SPECIMEN STRIKE "for pre- sentation purposes. A number of Branch-Mint Proofs and "Specimen Strikes" have already been documented. A remarkable specimen which should be "worth"	750.00

3¢ SILVER 1851-O PROOFLIKE

218. 1851-O Brilliant Bluish Golden, Prooflike surface, SHARPER STRUCK THAN USUAL! While not a full "proof", it appears that it might have had "Special Care" when it was struck. We have seen several such specimens during our 38 years as professional numismatists, the most recent one valued at 500.00

3¢ SILVER 1854 PROOF

219. 1854 BRILLIANT BLUISH PROOF! A MAGNIFICENT SPECIMEN OF THIS GREAT RARITY! We have seen other specimens purporting to be "Proof" during our 38 years as professional numismatists, but close inspection of those seen raised doubts as to their having been struck as full intentional proofs. The only genuine 1854 proof we can recall cataloging in all our previous sales (now approaching 300) appeared in our 292nd sale where it realized \$1,775.00. It was a nice specimen, however, WE BELIEVE THIS ONE TO BE AS CHOICE OR THE CHOICEST OF THE FEW GENUINE SPECIMENS KNOWN! We have handled several 1855 proofs over the years, as well as seeing some others. The 1855 proof is Very Rare but does not approach the EXTREME RARITY OF 1854 PROOF! The Miles collection auctioned by Stack's April 1969 did not have the 1854 proof but did contain the 1855 proof which realized \$1,400.00. The new Scott Comprehensive Catalogue is "conservative" with its value of only \$1,200.00. We believe it to be "ultra-conservative" with its value of only \$1,800.00 for 1854 (possibly a "theoretical" value as we do not know how they arrived at this price).
If this were in our stock, considering the factors of Rarity, Supply & Demand, we would not hesitate to price it at 3,000.00

3¢ 1856-1857 PROOFS

220. 1856 BRILLIANT BLUISH PROOF! A MAGNIFICENT SPECIMEN OF THIS RARITY! The Miles specimen (Stack's April 1969) realized \$1,250.00. Two years previous, the Jay specimen (Stack's Oct. 1967) realized \$1,000.00. Surely two years later, a choice specimen such as this, should realize closer to 1,500.00

221. 1857 BRILLIANT FLAWLESS PROOF! IF NOT ACTUALLY THE "FINEST KNOWN", THEN SURELY EQUAL TO IT! The "Hall Mark" of genuine proofs of this date (evident under a strong glass) are the mint striations. The Miles specimen over 2 years ago realized \$1,300.00. Surely this choice specimen now worth 1,500.00

3¢ SILVER 1858-1873

222. 1858 Bluish Golden PROOF, appears to have been cleaned some time ago and now acquiring some toning. ONLY 80 SAID TO HAVE BEEN STRUCK! Catalogs in Scott at 750.00

We do not know if this is the 1963 discovery specimen as it was described there as "UNIQUE". Probably worth at least	750.00

240.	1830 Blue PROOF, deeply toned. Original description states: "Struck from regular dies which had been polished as the reverse die appears worn on the neck of the eagle. Prior to 1858, when a request came in to the mint for proof coins for some dignitary, collector or museum, the mint would polish the dies in use, carefully select the planchet and then strike the coin. Afterwards, the dies would again be placed into regular use." RARE.	350.00

1854 ARROWS AT DATE PROOF HALF DIME

252. 1854 BRILLIANT SLIGHTLY BLUISH PROOF. A MAGNIFICENT SPECIMEN! Possibly an equal specimen may exist, but certainly no superior one! Any value assigned to this date in proof must be theoretical as we cannot find a relevant sale record. The Charles Jay collection of proofs was virtually complete (had proof 1864-L 1c, 1867 Rays 5s) but started with 1856. The Miles collection of proofs started with 1855. As B. Max Mehl would state, "I don't know which is rarer, the coin or the opportunity to buy it!" Only a few proof sets were struck in 1854. Later, when collecting by series became popular, nearly all were broken up. The 3c and half dime were the least popular denominations (silver dollar most popular at the time, therefore more retained) therefore fewer of these were retained than the others. In checking records extending back nearly a century, it appears that in the 1854 silver proofs, the half dime is second in rarity only to the 3c piece! The 3c silver (lot 219) is valued \$3,000.00. This "type" (arrows) in pristine condition should proportionately be worth 2,500.00

1859 "TYPE" PROOF HALF DIME

256. 1859 Stars Hollow In Center, Arms Slimmer. Considered by many as a "type" and struck only this single year. BLUE PROOF, deeply toned. Catalogs 150.00

1859 TRANSITIONAL HALF DIME

257. 1859 Obverse of 1859 and Reverse of 1860 resulting in "United States Of America" not appearing. Also known as "THE COIN WITHOUT A COUNTRY". Stack's had this to say about the Miles specimen (April 1969) "This is the Dupont specimen sold by us in 1954. The Lenox Lohr Collection had a specimen (1956). The Empire coin listing was a typographical error. These are the only records we can locate. It now lists at \$2,000.00, and we feel this important coin will fetch that or more." It realized \$2,400.00 there over 2 years ago. We agree with Stack's that it is EXTREMELY RARE! A careful check of records extending back nearly a century reveals that it has been offered far less times than any of the other half dimes listed in the Guidebook! This includes the 1802 (which realized \$5,500 in the Miles sale). Since this 1859 transitional is offered fewer times, it does not have the opportunity to set as many records. Its great rarity has a tendency to keep it from realizing what it really should in comparison with the "rare" 1802.

The Dupont envelope (lot 1408) is with the coin. It is a "MAGNIFICENT BRILLIANT PROOF" (exact words of Stack's in describing Miles coin) and in addition has a lovely light bluish tint. For the reason mentioned above, we do not believe this rarity will now reach the \$5,500 price of the Miles 1802 but feel the intervening 2 years will now send bidders to over 3,500.00

1860 TRANSITIONAL HALF DIME

258. 1860 Obverse 1859 and Reverse of 1860. No full proofs are known. The 100 specimens struck 111 years ago varied from fairly decent strikes on selected planchets to poor strikes on unselected planchets. All we have seen in our 38 years as professional numismatists, were struck from worn dies. This particular specimen seems to have been struck from a selected planchet with some Prooflike surface. It also has a FULL SHARP HEAD to Liberty. There is only a slight flattening to shoulder and portions of wreath. **ONE OF THE BEST STRUCK SPECIMENS WE HAVE SEEN OVER THE YEARS!** Lovely bluish golden. 1,250.00

1860-1873 LEGEND OBERSE PROOF HALF DIMES

259.	1860 BRILLIANT BLUE & GOLDEN PROOF. Miles coin 2 years ago realized	95.00
260.	1860-O BRILLIANT BLUE & GOLDEN PROOF. The new Scott Catalogue now lists this & indicates it is VERY RARE. Probably worth over	250.00

265.	1865 BRILLIANT BLUE PROOF. Rarer than indicated by low catalog of only	200.00
266.	1866 RECUT DATE (acquired as overdate) BRILLIANT BLUISH PROOF. ONLY ONE OTHER SPECIMEN KNOWN. The discovery specimen (1957) impounded in the Eliasberg Collection. CERTAINLY VERY RARE IF NOT ACTUALLY EXTREMELY RARE! Surely this rarity worth at least \$300; and if very few others were discovered (no others have turned up in the 14 years of searching) it could very well be "worth" somewhat more.

INVESTOR'S HOLDING OF UNCLEAND PROOF INDIAN CENTS

Laid away before the modern era of "Rub & Scrub" specialists. All have their original luster with varying degrees of patina resulting in different colors of the rainbow; some are red, deep red, golden, bluish, pink, greenish, tan, olive, etc. It is a privilege to handle such a lot after attending conventions and viewing all the "improved" coins displayed. We cannot help but feel that this would take priority in an investment program for numismatists. It has all the desirable attributes without the possibility that any sizeable supply will be "dumped" upon the market. How can this occur when no large holdings exist. A limited quantity with increasing demand. What could be better?

1914 RED SEAL FEDERAL RESERVE NOTES

We do not know of a single complete set, therefore the prices in the various references must be theoretical in many instances. Based on our 38 years experience as professional numismatists, we know a number are Very Rare, particularly in the better states of preser-

vation; some can even be called Extremely Rare with several actually Excessively Rare. This section of the reference books should be completely revised to reflect the actual differences in rarity of the 12 banks and the 5 denominations. We unhesitatingly "stick our neck out" with the statement "Many are worth double, triple (& even more) catalog". We firmly believe that a reasonably complete set of these notes in nice condition will be an excellent investment over the relatively near future. It is inevitable that the reference books revise the values of these based on actual supply and demand and not on theory. Where 38 years experience has shown that the note is rarer than the catalog indicates, we have placed a more realistic value upon them. Regarding condition, we quote Donlon "Flawless Gem (our "SUPERB") is the condition which a discriminating collector seeks, but which is not always to be found in our large size paper money. Perfection is an admirable goal. Gem, well centered flawless notes are extremely difficult to obtain in most series of large size notes, and absolutely impossible to find in the rarer issues. When obtainable a GEM well centered, flawless note (our "SUPERB"), depending upon its scarcity, should be valued at 20% to 50% over the value of uncirculated (new) notes." This ratio of premium for "SUPERB" notes must increase as fewer and fewer notes remain in the original pristine condition (being handled in displaying and passing from collection to collection).

\$5 1914 BLUE SEAL FEDERALS

Both Friedberg & Donlon start at \$25 (new) but show only moderate advances for notes we have had on want lists for over a decade — this in spite of the fact we have searched diligently for them. A number of prices listed therefore are "theoretical" since we cannot

\$5 1914 BLUE SEAL FEDERALS (Cont.)

find any records (or the notes themselves) on which to base values. The values listed are based upon our 38 years experience as professional numismatists. If a complete set of these exists (particularly if "new") we would like to know the owner. It is inevitable that more realistic values will be listed in the not too distant future when the authors decide to give this long-neglected series the consideration given the other series.

\$1 1918 FEDERAL RESERVE BANK NOTES

An "EMERGENCY ISSUE" OF WORLD WAR I. "NATIONAL CURRENCY" at top and on back. The obligation is most unusual clearly showing the emergency nature and limited time (one year) intended for them, "Secured by U.S. Certificates of Indebtedness or U.S. ONE-YEAR GOLD NOTES, Deposited With The Treasurer of The U.S. Of America" Unlike other issues which circulated until worn, and were then replaced, **THESE WERE ACTUALLY CALLED IN FOR REDEMPTION (REGARDLESS OF CONDITION)!** They were replaced by the 1917 series Legals and 1899 series Silvers; and finally after resumption of striking silver dollars in 1921 by the 1923 Silvers. The issuance of \$1 Federals in 1963 renewed interest in these older Federals. The increased demand has shown that the ratio of survival of "new" condition notes compared to "used" ones varies greatly among the 39 \$1 notes comprising 12 banks and the different signatures. **WE DO NOT KNOW OF A SINGLE COMPLETE SET EXISTING IN "NEW" CONDITION!** Although Wm. A. Philpott, Jr. (THE ONLY ONE TO ASSEMBLE A COMPLETE COLLECTION OF ALL 127 1915-18 FEDERAL RESERVE BANK NOTES) actively pursued the assembling of his collections for 50 years, HE WAS UNABLE TO OBTAIN A "NEW" CONDITION SPECIMEN OF ALL 39 \$1 NOTES! Some notes seem to appear upon the market "new" at reasonably frequent intervals during the past decade or two but some seem to be literally "impossible" to obtain. As a result, we are forced to conclude that some of the values listed are "theoretical" and are not based upon records of actual notes being sold. Undoubtedly, many "sleepers" exist (particularly in the higher states of preservation) and must eventually rise to their proper value levels when a more serious study is made of this ephemeral issue.

Not only is the revision necessary in ratio of values between "very fine" and "new" but the actual rarity (as reflected by the value indicated) of certain signatures is inconsistent with the frequency (or infrequency) of offering over the years. We believe a reasonably complete set, particularly in choice condition, will prove to be an excellent investment and at the same time, will offer a challenge worthy of the most persistent numismatist.

1870-75 \$5-\$10-\$20 CALIFORNIA NATIONAL GOLD BANKS

"REDEEMABLE IN GOLD COIN" obligation at top; rev. pictures pile of \$1, \$2½, \$3, \$5, \$10, \$20 gold coins. Issued specially for California which liked "hard money" (gold) and mistrusted "Greenbacks". Only a very few were not redeemed for gold when the banks converted to regular national banks and issued regular nationals. What few are known today are in wretched condition with only a limited number of exceptions (the catalog recognizes this by listing them in only fair and very good conditions). The known specimens probably survived accidentally. In strong demand by "Type", "Californiana" and currency collectors. When collectors realize that a number of the relatively few coming upon the market are being impounded in museums, institutions and foundations, they will then make a greater effort to acquire these historical notes whenever an opportunity is presented to acquire them.

642.	\$5 F-1136 First National GOLD BANK of San Francisco, DATED NOVR. 30TH 1870 BUT THE \$20 GOLD PICTURED ON TOP OF PILE OF GOLD COINS IS DATED 1871! A fine specimen with fairly nice color and surprisingly free of the usual defects which seem to plague these notes. SOMEWHAT SUPERIOR TO THE USUAL POOR TO FAIR (& patched) SPECIMEN SEEN! Friedberg 3 years ago (1968) valued a "fair" specimen at \$150 and a "very good" one at more than double at \$325; Donlon a year ago (1970) advanced "very good" to \$400 value. Using the same ratio of values (very good being worth a little more than double the fair, & fine (if available) being worth a little more than double the very good) we arrive at a 1970 value of about \$850 and a current 1971 value to about \$950 to	1,000.00
643.	\$10 F-1146 First National GOLD BANK of Stockton, dated 1873, fine appearing with a minimum of minor defects which plague this issue. Superior to the usual wretched condition specimen seen (when infrequently offered). Easily worth	850.00

644.	\$20 F-1125 First National GOLD BANK of STOCKTON, dated 1873, VERY FINE appearing with somewhat fewer imperfections than seen in nearly all \$20 (of all Gold Banks) specimens we have seen in our 38 years as professional numismatists! One of the best condition specimens known! Fewer specimens are known of Stockton than of some of the other banks, which leads us to conclude that at least some of the values of this series are "theoretical" and not based upon actual specimens changing hands. Using the ratio of values in Friedbeg (very good double fair price, fine double very good and this exceptional specimen double the fine) we arrive at	2,800.00

1928 "GOLD OBLIGATION" FEDERALS, TYPE I

Numerals in left seal; green seal at right. Increasingly popular with many difficult to find, particularly in the better states of preservation. WE DO NOT KNOW OF A SINGLE COMPLETE SET OF FEDERALS, therefore many prices listed have to be "theoretical". The true test of prices must be supply and demand. Most of the prices seem to be based on quantity issued and not on actual records of notes changing hands. We have found in a number of instances, that very few have survived in some of the larger issues (also some lots have been discovered of some of the smaller issues). While we are primarily using the 6th edition of the Donlon Small Size Paper Money Catalog, we are supplementing it with records extending over our 38 years as professional numismatists.

1928 "GOLD OBLIGATION" FEDERALS, TYPE II

LARGE LETTER replaces numeral in seal. Issued during "The Great Depression" until early 1933 when the "gold obligation" was replaced by the "legal tender" obligation of 1934 series. WE DO NOT KNOW OF A SINGLE COMPLETE SET OF FEDERALS, therefore many prices listed must be "theoretical". Some so-called "commoner" notes are actually seldom offered over the years in choice condition. It is inevitable that revision of prices takes place reflecting the actual rarity of some of the notes.

1929 FEDERAL RESERVE BANK NOTES

An EMERGENCY ISSUE caused by the "BANK HOLIDAY" (March 5-12, 1933) in the depth of the "Great Depression". They were hurriedly "thrown together" by using the existing frames of the 1929 National Bank Notes and overprinting the balance, rather than engraving new plates (which took some time). This enabled the Bureau to produce the notes by March 11th! The last delivery was December 21, 1933! MUCH SCARCER THAN GENERALLY REALIZED, PARTICULARLY IN CHOICE CONDITION. The obligation engraved in the frames for the 1929 National Bank Notes reads "NATIONAL CURRENCY Secured By United States Bonds Deposited With The Treasurer Of The U. S. Of America" to which was added by printing below "OR LIKE DEPOSIT OF OTHER SECURITIES".

\$1-\$2-\$5-\$10 1890-91 COIN NOTES
\$5 1891 F-365 LYONS-ROBERTS INCLUDED (Cont.)

1340. F-365 1891 \$5 Lyons-Roberts, new, crisp with nice margins. **Acquired several years ago from Robert Friedberg as "EXTREMELY RARE".** Records of our 38 years as professional numismatists confirm the attribution of **"EXTREMELY RARE". WE KNOW OF ONLY 5 SPECIMENS IN EXISTENCE!** Assuming others may exist which are not included in our records, the fact is still evident that **THIS IS ONE OF THE RAREST OF ALL U.S. NOTES!** We have seen and handled more of the \$50 (catalogs \$9,000) & \$100 (catalogs \$6,000) coin notes than this \$5 Lyons-Roberts! Allowing for their greater demand as "type" notes and the fact that enough specimens have been offered over the years for new records to be set, we feel that this GREAT RARITY will now seek its proper value commensurate with its rarity. **The very fact of its great rarity has prevented collectors from realizing just how rare it actually is.** Theoretical values have remained unchanged since the opportunity to acquire a specimen did not present itself. We believe it to be in the rarity class of the \$20 1891 coin note Bruce-Roberts (catalogs \$3,000) and very close in rarity to the \$2 legal F-49, 1878 Scofield-Gilfillan (catalogs \$4,000). We can only present the facts as to its rarity; what it will realize must be determined by you, the bidder. Those who have had this note on their want-list for years, will now realize why they couldn't locate one. Serious collectors should take into account the time which may elapse before another specimen is offered.

1882 DENOMINATION BACK CURRENCY

1583. \$10 F 576½ Tillman-Morgan (UNKNOWN TO FRIEDBERG WHEN CATALOG WAS FIRST PUBLISHED). From March, 1967 sale where it was stated that ONLY 2 SPECIMENS WERE SAID TO BE KNOWN & THAT THIS MIGHT BE ONE OF THEM OR ELSE A NEW DISCOVERY! National of Ashabula, Ohio, charter 5075, very good. As can be seen from the quality of the notes in this collection, the owner was quite "choosy" about condition, however he felt that he probably would never have another opportunity to acquire a specimen with this signature combination, due to its extreme rarity. He therefore made this exception for condition; choosing to have it thus rather than "going without". He paid \$1,000 for this note at that sale over 4 years ago. Present value ?

SILVER DOLLAR TYPES

1837.	1795 FLOWING HAIR, 15 STARS (states), 3 leaves beneath each wing, B-6 variety, very close to the "Uncirculated" for which acquired, only barest friction on high points. A choice and attractive specimen of the first type dollar. There has been a marked rise in values of these early dollars during the past year. This is reflected by the new Scott catalogs recently issued which values this type in unc. at	2,400.00
-------	--	-----------------

1795 DRAPED BUST "GEM" DOLLAR

1838.	1795 SMALL EAGLE, B-15 variety (only 2 varieties struck of this type in 1795 compared to 14 varieties of 1795 type I). This fantastic specimen seems to have been described as "PROOF", "PROOFLIKE", "PROOF SURFACE", "PRESENTATION PIECE", etcetera during its past history. We note Bolender in his book describes his 1795 B-16 variety as a "PROOF". This shimmering lovely blended blue and gold SHARPLY STRUCK (center points of all stars sharp) WITH DEEP, SHARP MILLING BOTH SIDES WOULD BE DIFFICULT TO EQUAL IN CONDITION. Those who have been looking for a really choice specimen now have the opportunity to acquire it. How many years will elapse before another opportunity comes along, your guess would be as good as ours. Catalogs in the new Scott Catalogue at \$2,800 for "unc.". This particular specimen was acquired in 1968 at \$3,600 when the "catalog value" for "unc." was \$1,200. Surely this remarkable specimen now worth over	5,500.00
-------	---	-----------------

1797-1803 "TYPE" DOLLARS

1839.	1797 16 STARS arranged 9 left & 7 right to signify the admission of Tennessee as the 16th state, B-1 variety, Large Letters, very fine but due to the planchet being slightly curved, LI and a tiny bit of the hair are not as sharp as the rest of the coin. Considered by many as a distinct "type". THE SMALLEST TOTAL ISSUE OF ANY DATE 1795 THROUGH 1803! We feel the catalog value is a bit low v.f. at only	525.00
1840.	1797 STAR ARRANGEMENT CHANGED to 10X6, B-3 variety, extremely fine with luster. ONLY HALF THE NUMBER STRUCK AS THE ABOVE 9X7 STARS! Greatly undervalued in keeping with its rarity. Should be worth at least ...	1,000.00
1841.	1798 "TRANSITIONAL" TYPE, obverse type 1799 with 13 stars, reverse type 1797 with small eagle & Large Letters, Virtually Uncirculated, only barest rubbing on high points. Probably "CONDITION CENSUS" for this rarity which may not exist strictly uncirculated. Well worth	1,500.00

1842. 1802 7X6 STARS, HERALDIC EAGLE REVERSE, B-6 variety with close normal date, near Uncirculated, only slight friction, attractive bluish golden patina. Catalogs low unc. at only \$800; we note the new 1971 Scott Catalogue is more current with its value for unc. of \$1,000.00. This specimen worth proportionately.
1843. 1799 8X5 STARS as on gold eagles (\$10) of this period (an attempt at conformity of the largest silver coin with the largest gold coin?) B-23 variety, very fine, small nick on reverse. **RARE (Rarity 5).** Only the one variety and only the single date with this star arrangement. Undervalued at its low catalog value of only 300.00

1836 GOBRECHT FLYING EAGLE DOLLAR	
1844. 1836 No Stars obverse, eagle in field of 26 stars (states)reverse, BLUISH GOLDEN PROOF. Said to be the most beautiful silver U.S. coin struck. Catalogs	1,900.00

LIBERTY, PEACE, TRADE DOLLAR	
1845. 1843 No motto, near Uncirculated. Catalogs unc.	175.00
1846. 1871 MOTTO, Uncirculated bluish golden, GEM WITH PROOFLIKE SURFACE! In this condition, actually rarer than the proof which catalogs \$325; we know of a comparable specimen sold over a year ago at	250.00
1847. BLANK PLANCHET WITH UPSET EDGE (second process) Near Uncirculated. VERY RARE.	250.00
1848. 1884-S Liberty Head, Uncirculated slightly golden. Catalogs	65.00
1849. 1935-S Peace, Uncirculated golden, bag-marked. Catalogs	45.00
1850. TRADE DOLLAR 1876 S PROOFLIKE, typical strike with top of head and adjacent stars not fully struck up.	150.00

CARSON CITY MINT DIMES	
1851. 1871-CC Extremely fine with traces of luster. RARE, PARTICULARLY SO CHOICE! Catalogs \$1,600 unc.; this worth about	1,000.00
1852. 1872-CC UNCIRCULATED BLUISH GOLDEN, SHARP STRUCK! As stated in the Scott 1971 Catalogue, this date is " EXCESSIVELY RARE IN UNC. ". \$1,400.00 was paid for this remarkable specimen in March, 1967. Surely this great rarity should now realize more.	

1853. 1873-CC Arrows, about fine (light on obverse which appears to be a die break until examined closely). **RARE.** Catalogs fine 600.00

1854. 1874-CC From a 1967 sale described "Very good. VERY RARE. ONE OF THE RAREST DATES IN THE ENTIRE SERIES. A careful check of sales extending back many years indicates this date is generally missing, even in great "name" sales. Cost \$595 in 1964; present value closer to (750.00)." A quick glance at the mintage figures reveals that FAR LESS 1874-CC THAN ANY OTHER CC MINT DIMES WERE STRUCK! Your guess is as good as ours as to how many more years will again elapse before another specimen again appears on the market. Present value?

1858. 1877-CC Brilliant Uncirculated, **SHARP STRUCK GEM!** The Merkin sale (early 1966) specimen with Prooflike surface realized \$150; surely this gem worth 100.00
1859. 1878-CC **PROOFLIKE** with golden patina, **SHARP STRIKE! LOW COINAGE.** Merkin sale (early 1966) realized \$130; surely this one now worth closer to 175.00

1875-S OVER CC TRADE DOLLAR

1889.	1875-S OVER CC, from a June, 1965 sale described "1875-S OVER CC (one C to right of S) Uncirculated slightly golden, barest trace rubbing. EXCEEDINGLY RARE. What few specimens are presently known, with very few exceptions, have "chop-marks" attesting to their use in the Orient. The rarity of this major variety was probably caused by almost all from this die being sent to the Orient where most were melted for silver (a few escaped still bearing chop-marks attesting to their high silver content). Listed but not priced in Guidebook due to rarity. Also listed in new 1971 Scott Catalogue without a price; instead it lists there as "R7" (7 TO 9 SPECIMENS KNOWN!). We note an ad by the well known Miami dealer Sid Smith in the December, 1968 Numismatist, page 1660 offering an "1875-S/CC Trade Dollar, Unc. one, chop mark on each side, finest known specimen—\$2,950.00". What this more desirable specimen will now bring, your guess would be as good as ours.
